

One-off large amounts of garbage / Garbage from moving house  
 Take garbage directly to a garbage processing center designated by the city, or have a company with a permit issued by the city transport the garbage for you (this will incur a cost).

**■ Taking household garbage (oversized garbage and other garbage) directly to a garbage processing center yourself ■**

If the person disposing of the garbage is a citizen of Higashihiroshima City

- Separate garbage correctly, and put the garbage into designated bags before taking it to the center. Oversized garbage too large to fit into garbage bags, newspapers, magazines, miscellaneous paper and cardboard do not need to be put into garbage bags.
- Be sure to take proof of your residence in Higashihiroshima City (driver's license, and item of post addressed to you, etc.) with you.
- Take your garbage to the appropriate center, as shown below.

Burnable garbage, dangerous garbage, other plastics, newspapers, magazines/misc. paper/cardboard, burnable oversized garbage

Hiroshima-Chuo Ecopark  
 (10759-2 Kami-Minaga, Saijo-cho)

☎ 082-426-0820

8:30-17:00 (Closed on Sundays)

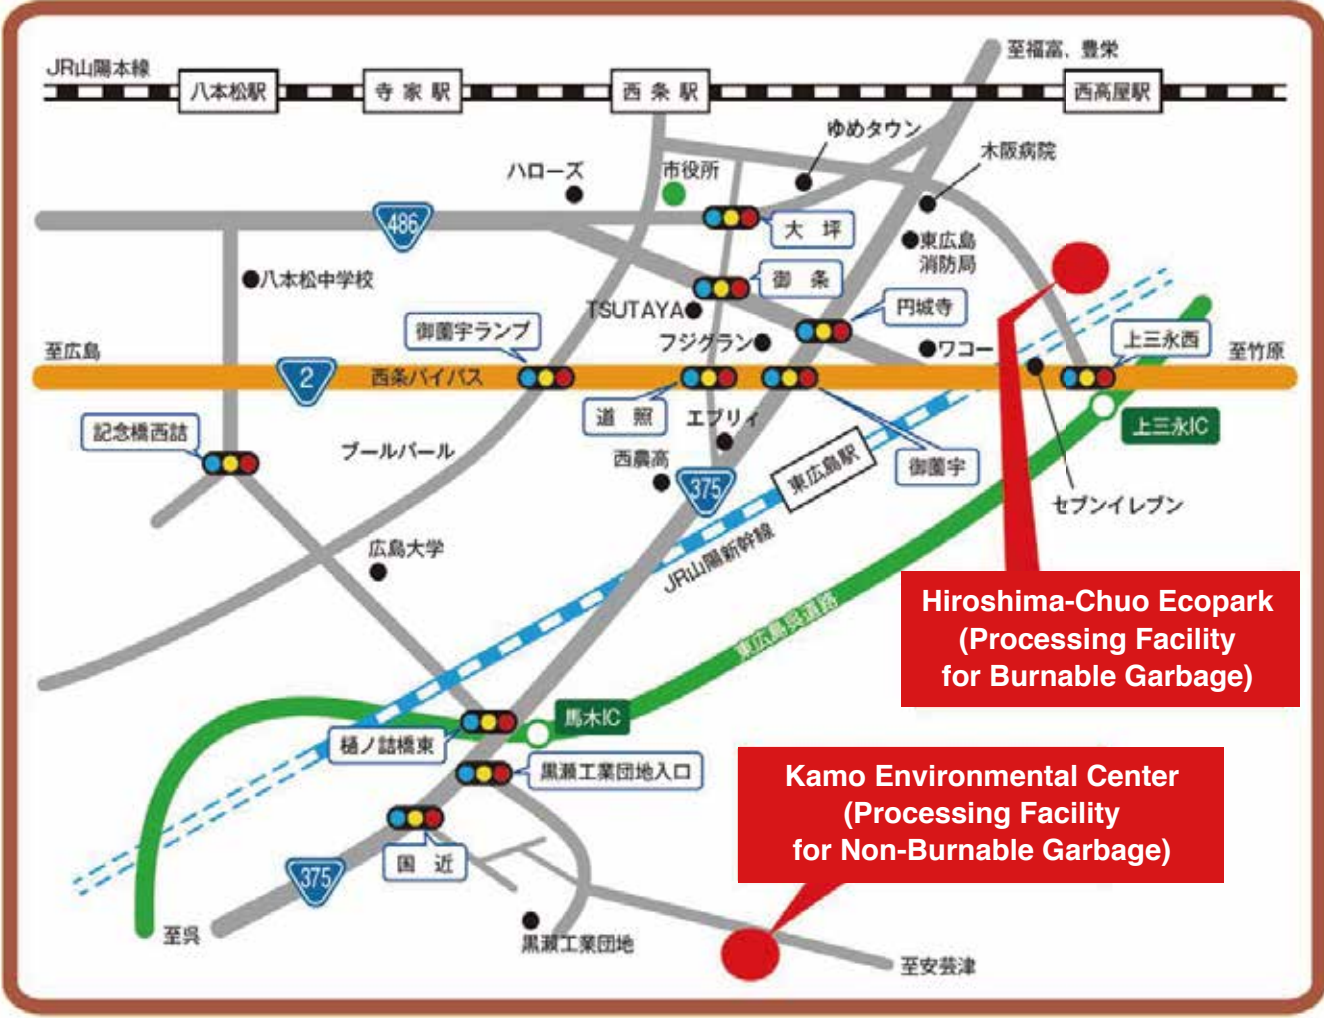

Bottles/cans, recyclable plastics, PET bottles, hazardous garbage, non-burnable oversized garbage

Kamo Environmental Center  
 (10427-24 Kunichika, Kurose-cho)

☎ 0823-82-6499

8:30-17:00 (Closed on Sundays and holidays)

- Points to note regarding using the garbage processing centers:
- At the center, drive your vehicle (under 4 tons) on to the weighing machine, and show your identification at the weighing office.
  - Follow the directions of the staff when unloading garbage. After unloading, drive your vehicle on to the weighing machine again.
  - In the centers, there are large trucks moving around. Please be very careful.
  - When taking garden (wood) waste, etc., to the Hiroshima-Chuo Ecopark, cut the wood into pieces shorter than 1m50cm (1m30cm for bamboo), and ensure that the wood is less than 20cm in diameter.
  - Inquire at appropriate shops regarding items which cannot be disposed of at municipal facilities (televisions, fridges, washing machines, air conditioners, tires, agricultural implements, motorbikes, medicines/chemicals, fire extinguishers, etc.). These items will not be accepted at municipal facilities even if broken up.
  - Construction waste and demolition waste from a business is industrial waste, and cannot be accepted.

**■ Garbage that cannot be disposed of ■**

The following cannot be disposed of at municipal facilities, even if broken up. They cannot be taken directly to a facility. See the table below for disposal methods.

Items	Method of disposal
Household appliances: televisions, fridges and freezers, air conditioners, washing machines and clothes driers	According to the Home Appliance Recycling Laws. Disposal will incur a cost. Please inquire at a cooperating electronics appliance store (a store collecting appliances): Edion Higashihiroshima Store, tel.: 082-423-3211, Edion Saijo Gakuen Store, tel.: 082-421-1144, Yamada Denki Techland, tel.: 082-426-3200. For details, contact the Home Recycling Coupon Center (tel.: 0120-319-640).
Computers (desktops, displays, notebook computers)	According to the Law for Promotion of Effective Utilization of Resources: please check with the manufacturer. Disposing of items without a PC recycling sticker will incur a cost. Contact (for home-built PCs and in cases when the manufacturer cannot be contacted): Computer 3R Promotion Association (tel.: 03-5282-7685) HP: <a href="https://www.pc3r.jp/">https://www.pc3r.jp/</a> Please make use of the collection boxes for small household appliances, situated in the City Office (main building), and in the branch offices and sub-branch offices of the City Office. Eligible items (not televisions/displays with cathode ray tubes) can be accepted without charge.
Household fire extinguishers	The Japan Fire Extinguisher Manufacturers' Association cooperates with local stockists to dispose of fire extinguishers. Recycling stickers, transport and storage will incur costs. Contact: Japan Fire Extinguisher Manufacturers' Association (Fire Extinguisher Recycling Promotion Center) (tel.: 03-5829-6773) HP: <a href="https://www.ferpc.jp/">https://www.ferpc.jp/</a>
Motorbikes and scooters (mopeds)	Please check with businesses dealing with scrap motorcycles. Contact: Motorcycle Recycling General Enquiries (tel.: 050-3000-0727)

**Business garbage (Non-household garbage)**

Garbage generated from business activities: general garbage generated from farming, fishing, catering, services, manufacturing, processing, retail, factories and offices, etc.

※Please arrange for a collection company with a permit issued by Higashihiroshima City to dispose of this garbage, or transport the garbage directly to a garbage processing center yourself, having first completed the required formalities (on the principle that waste-discharging enterprises shall bear the responsibility for waste disposal).
