Please be careful that your water pipes, water meter, etc. don't freeze

- ・水道管や水道メーターなど
- ・の凍結にご注意ください

If you have water pipes or your water meter is outside, on the north-facing side of your accommodation or in a place exposed to the wind, or if the lagging for the pipes or meter is peeling away, wrap the pipes and meter in insulating material, etc., to keep them warm.

If your water pipes burst, shut the telescopic water shut-off valve (the stopcock) inside the meter box, and call a designated water supply works company to request repairs. To ensure that you are prepared for any bursts, check in advance the location of the stopcock, etc. and test to see if the water can be shut off completely.

If you require emergency repairs for a leak inside your house during the year end and new year period (Sunday December 29th - Friday January 3rd), please contact one of the following, between 9:00 and 22:00.

Frequently-asked Questions

Q1. Do I have to submit my tax return by post?

A1. In order to reduce congestion at the venue, please refrain from coming to the venue as much as possible. Instead, submit the tax return form and the documents listed in the table above, 'Documents required when filing your tax return', by post.

Q2. I have submitted a 'Hometown Tax One-Stop Special Exemption Application', but I want to add a medical expenses deduction, so I am planning to file a final tax return. In that case, do I not need to report the donation?

A2. People who have filed a final tax return are not eligible for the Hometown Tax One-Stop Special Exemption System. When filing your tax return, you can also claim a donation deduction, which will allow you to receive a deduction on your income tax and municipal and prefectural taxes.

Please discuss matters if you have any concerns or worries about your life

- ・生活の不安や心配ごとはご
- ・相談ください

I can't find a job... I can't manage my household finances well... I haven't worked in a long time so I'm worried about finding a job... I can't pay my rent... I'm worried about my child's studies...

The 'Life Support Center' supports people who are struggling to make ends meet so that they can live independently. It is located on the 2nd floor of the City Office Main Building, and is open to people who are struggling to make ends meet and are at risk of being unable to maintain a minimum standard of living (excluding those receiving welfare benefits).

The center provides the following kinds of support. Depending on the content of the consultation, we can introduce you to relevant organizations and accompany you to them. In order to receive support, we may need to confirm your situation in detail or submit documents, so please contact us first.

Self-reliance counseling and support: A counselor listens to what you are struggling with, considers with you the support you need, and creates a specific plan based on your individual situation.

Employment (preparation) support: We support the job hunting activities of people who want to work. For people who have difficulty finding work immediately due to physical problems, we also provide employment preparation support that starts with group work and work experience.

Support for improving household finances: To enable clients to manage their own household finances, we create household finance revival plans, provide consultation support, and act as an intermediary to specialized institutions for debt consultation.

Payment of Housing Security Benefits: This provides an amount equivalent to rent (excluding housing loans) for a certain period to people who are willing to look for work. An amount equivalent to three months' rent is paid. This can be extended for up to nine months (there is an upper limit to the amount).

Those who are financially struggling due to unemployment, who have lost their home or are in danger of losing their home, and who are 'looking for work' are eligible (income and asset requirements apply).

In addition to the above support, we also provide 'children's learning support' for households on welfare (former teachers and volunteers work to improve academic ability and create a place for children to belong with their peers).

Coming-of-Age ceremony

- ・二十歳のつどい

The Coming-of-Age ceremony is held on the second Monday of January every year to celebrate those who have reached the age of adulthood. Each local government holds this ceremony for those who reach the age of adulthood between April 2 of the previous year and April 1 of the current year. Although the age of adulthood was lowered from 20 to 18 on April 1, 2022, Higashihiroshima City continues to hold the Coming-of-Age ceremony for those who are 20 years old.

The 2024-25 Coming-of-Age ceremony will be held on Monday January 13th (a national holiday), from 11:00, at the gymnasium of the Higashihiroshima Sports Park. The doors will open at 10:15, and attendees need to be in their seats by 11:00 (it is not possible to enter during the ceremony).

The ceremony is for those born between April 2nd, 2004, and April 1st, 2005. Even those (born between the dates above) whose address is not registered as Higashihiroshima City are welcome to take part.

Invitation postcards were sent out on November 26th to those in the age range above with registered addresses in the city. If you are in the above age range and you do not receive an invitation, please contact the Youth Development Division.

If you forget your invitation on the day, you will need to show proof of identity (your Residence Card, etc.).

Night-time and holiday hospitals

・ 夜間休日当番医
・
・

• **Night-time and holiday duty hospitals:** Full information about night-time and holiday duty hospitals within Higashihiroshima City is published in the Japanese-language version of the monthly city newsletter 'Higashihiroshima' (the page inside the back cover; only in Japanese), and on the Higashihiroshima City website (in Japanese and English). The information is subject to change at short notice, so before going to a medical facility, please be sure to call to confirm details.

Recently, there are more and more patients using emergency medical facilities at night and on holidays even though their situation is not serious. In some cases, these patients have prevented or delayed the treatment of patients with truly serious illnesses, and additionally, such cases are one of the reasons for doctors becoming overworked. Emergency medical facilities open at night and on holidays are for patients with serious, emergency conditions. Please try to visit the medical facility you use normally, during opening hours on weekdays.

• **Emergency medical treatment for children:** Please call the advice line on #8000 (if you cannot get through on this number, please call 082-505-1399). The service is available every day between 19:00 and 8:00 the following morning. You can obtain information about whether or not you should take your child to a medical facility outside of normal opening hours (at nights, on weekends or holidays, etc.).

• **If you have a medical problem at night or on weekends, and you are unsure about whether or not you should go to a medical facility:** Please call the Hiroshima area emergency consultation center on #7119. The service is free, and is available 24 hours a day, 365 days a year. The staff will be able to give you advice on whether to rest at home and see how symptoms develop, or whether you should go to a medical facility. If necessary, they can give you information about which facility to go to, or they can connect you directly to the 119 emergency service. In an emergency, do not hesitate to phone 119.
