- If you wish to apply to receive financial support, please obtain an 'Application Form for School Expenses Subsidies' from your child's school, fill in the necessary information, and submit it to the school, along with any other necessary documents, depending on the reason for your application. If you do not have the necessary documents immediately available, please submit the application form first, and then provide the necessary documents later.
- If you have more than one child, and the children attend different schools, please apply to each school separately.
- It is necessary to reapply each year even if you were receiving financial support during the previous academic/financial year.

- It is necessary to apply even if you received subsidy payments for expenses involved in your child starting a new school (the subsidy payments being made in advance of your child starting the new school).
- Applications can be accepted at any time during the year. However, as a rule, for applications made in months other than April, the subsidies will begin to be paid from the month after the application was made.
